

Sustainability & Recommerce

In 2020, sales of pre-owned electronics and apparel on eBay conserved 720,000 metric tons of carbon emissions

Reselling Promotes Sustainability

Recommerce, or buying and selling pre-owned clothes and other items, is a simple and yet effective way anyone can help conserve Earth's resources

By 2025, eBay will create \$3 billion in positive economic impacts and prevent an additional 3 million metric tons of carbon emissions through sales of pre-owned electronics and apparel

eBay C2C sellers surveyed around the world sell pre-owned items because it's eco-friendly

eBay sellers are dedicated to climate action

Eric's Corner Store
ebay.com/str/ericscornerstore

Sells salvaged parts to repair appliances, reducing items sent to landfills

Bee Happy Eco Products
ebay.com/str/waxwrapsecoproducts

Makes cloth and beeswax food wraps, eliminating single use plastic cling wrap

human-I-T
ebay.com/str/humanit

Refurbishes computers and other tech, distributing them for free or significantly reduced prices

By 2025, eBay will attain 100% renewable energy usage in our data centers and offices

Renewable Energy Driven Ecommerce

We are actively growing our use of renewable energy to power our data centers and offices

In 2019, 64% of energy usage came from renewable sources

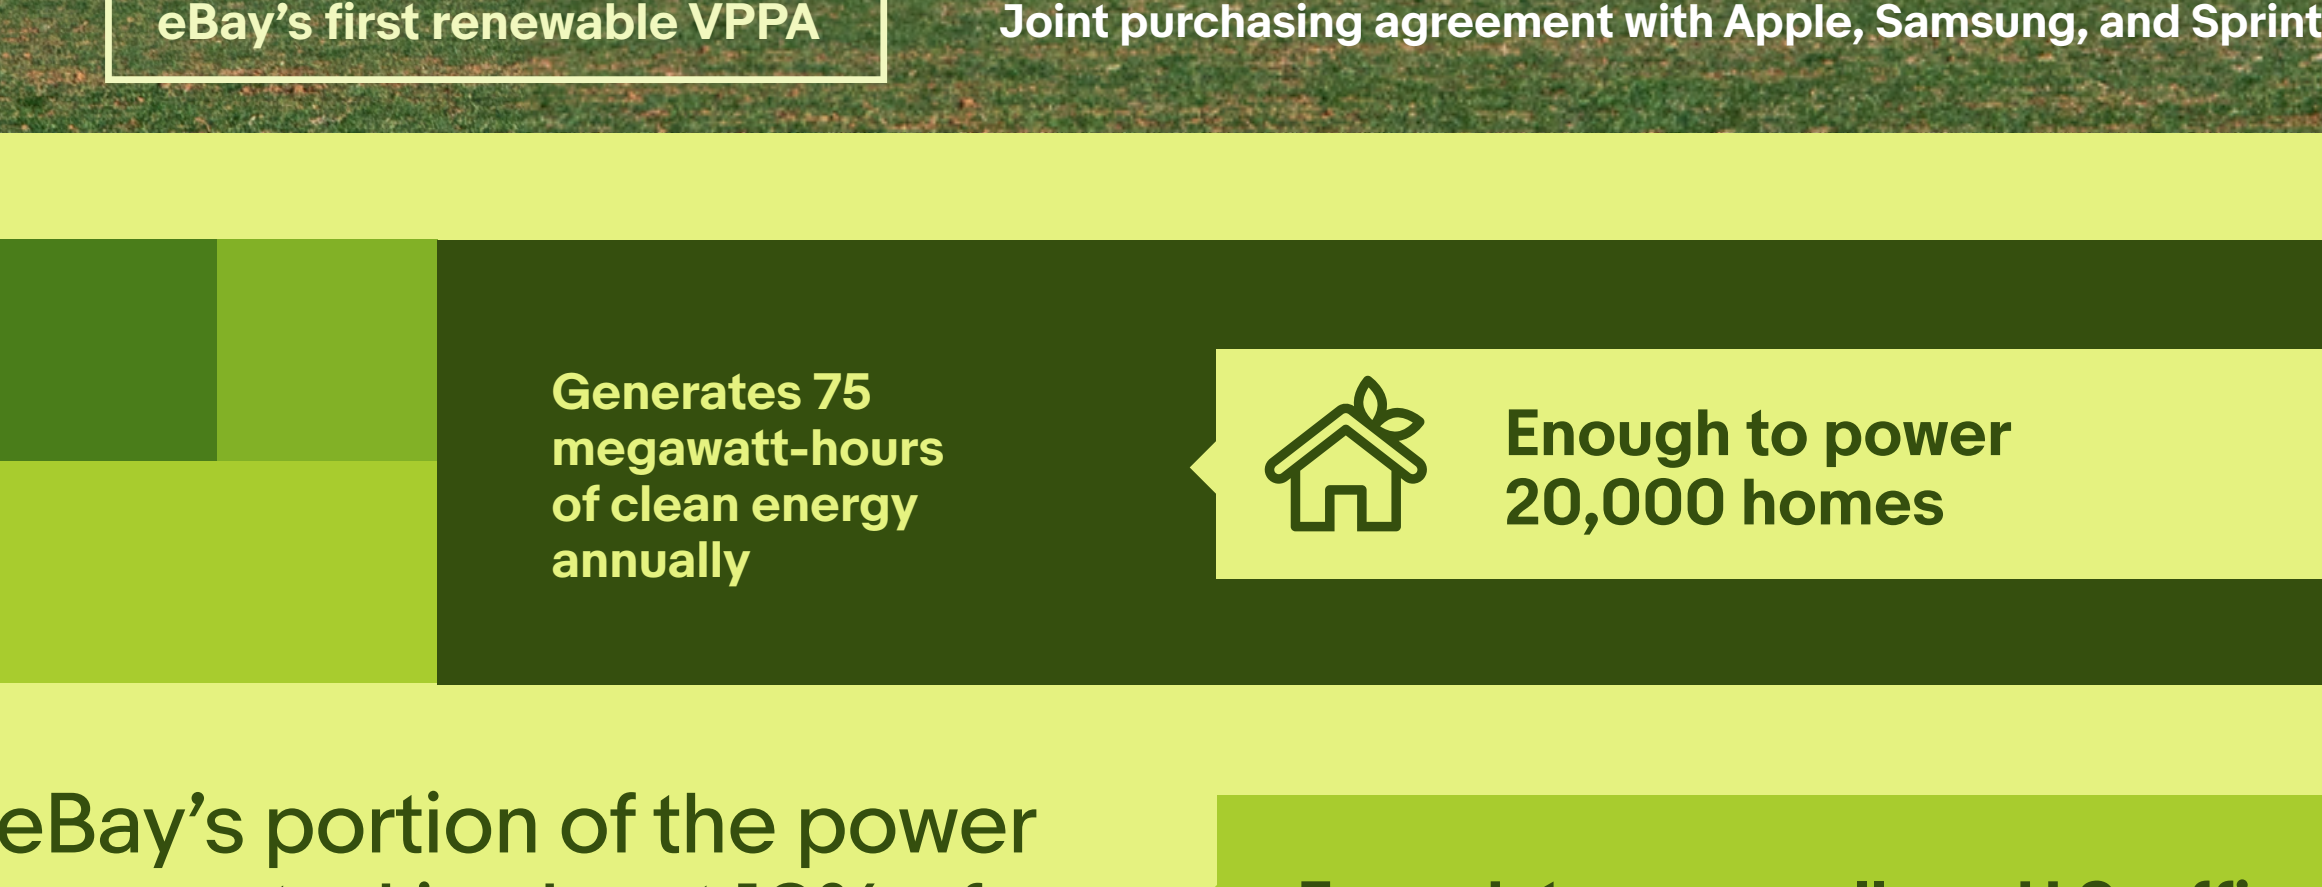

In 2020, our overall renewable energy share reached 74%

Virtual Power Purchasing Agreements (VPPAs)

White Mesa Wind Project

eBay's first renewable VPPA

Joint purchasing agreement with Apple, Samsung, and Sprint

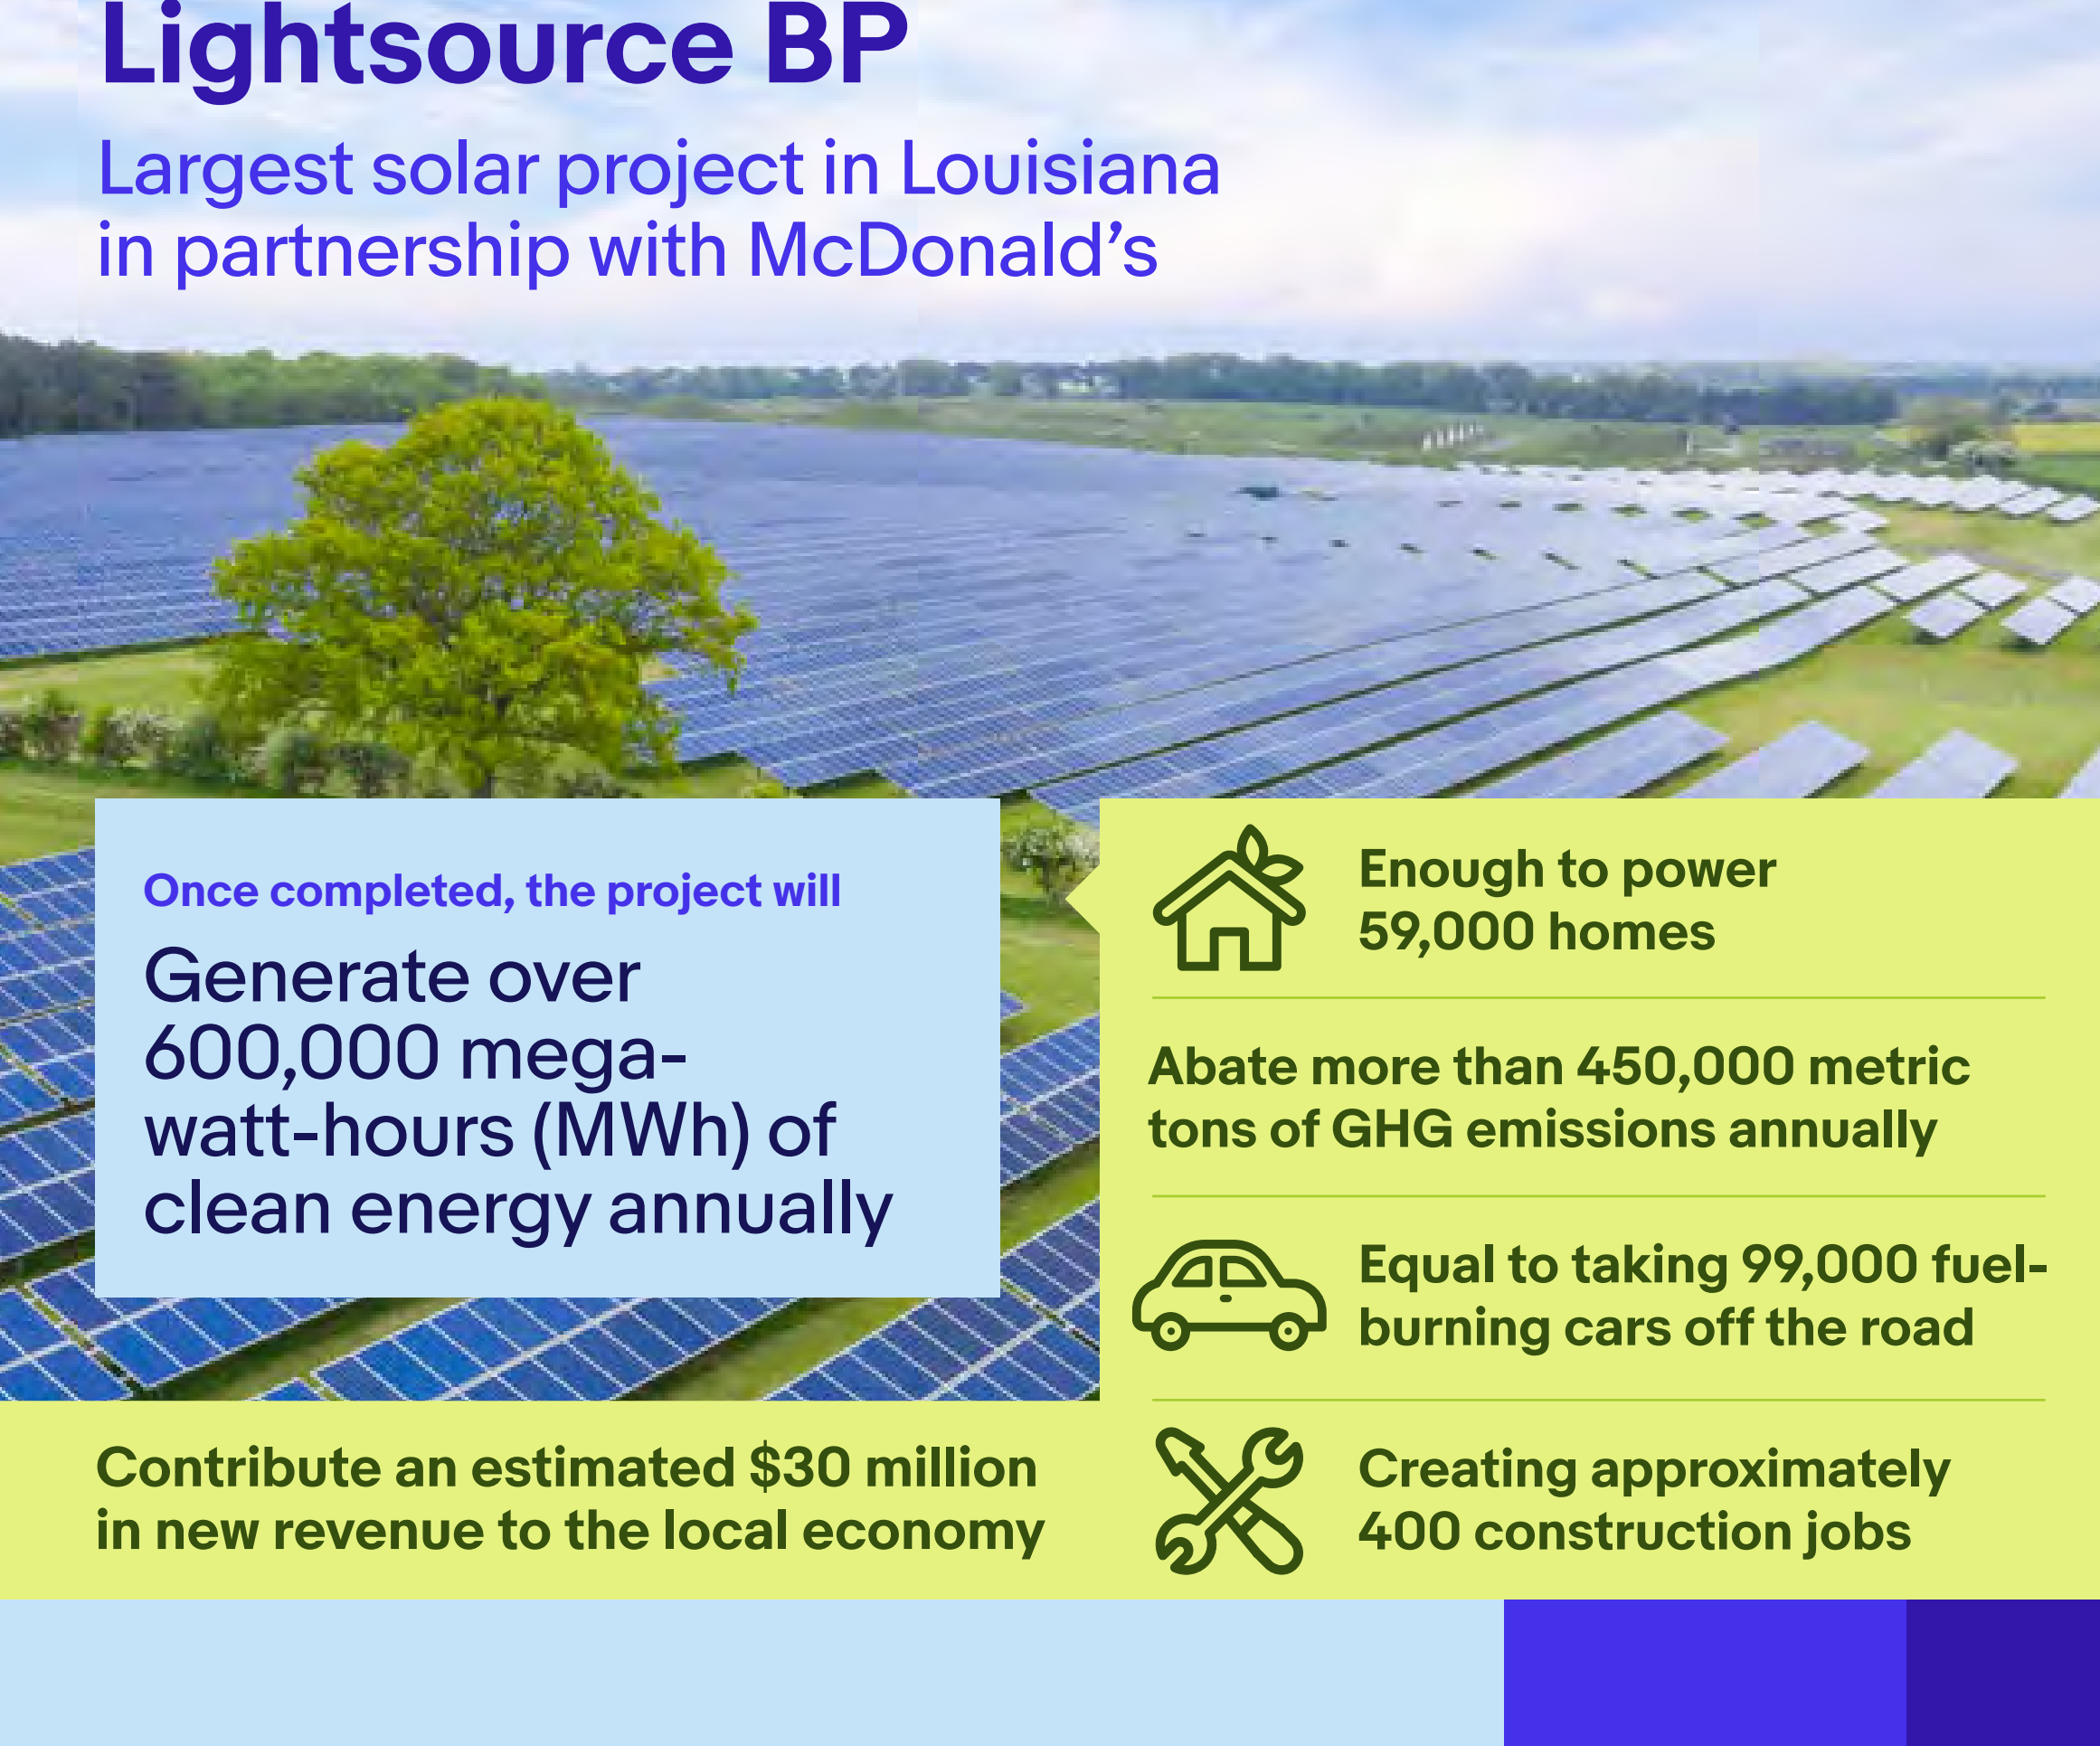

Generates 75 megawatt-hours of clean energy annually

Enough to power 20,000 homes

eBay's portion of the power generated is about 10% of our global footprint

Enough to power all our U.S. offices

Lightsource BP

Largest solar project in Louisiana in partnership with McDonald's

Once completed, the project will Generate over 600,000 megawatt-hours (MWh) of clean energy annually

Contribute an estimated \$30 million in new revenue to the local economy

Enough to power 59,000 homes

Abate more than 450,000 metric tons of GHG emissions annually

Equal to taking 99,000 fuel-burning cars off the road

Creating approximately 400 construction jobs

Committing To A Sustainable Future

How will eBay meet its commitment to a sustainable future?

Integration of best practices in our facilities' operations and maintenance

Water conservation:
In 2020, we decreased water usage by 29%

Waste diversion:
In 2020, 97.5% of waste was diverted from landfills at eBay HQ

Growing reliance on renewable energy to power data centers and offices

That's equal to 104 Olympic-sized pools

Partnerships organizations dedicated to advocating for climate action

Renewable Energy Buyers Alliance (REBA)

Ceres Business for Innovative Climate and Energy Policy (BICEP) Network

We are already leading the way

Leaders in corporate transparency on climate action in the CDP Climate A List

Inclusion on the Dow Jones Sustainability World Index
