

Mazen Rawashdeh

SVP & Chief Technology Officer

Mazen Rawashdeh is eBay's Chief Technology Officer, responsible for driving a large-scale technology vision, strategy, implementation and transformation across the company. His career includes nearly 30 years of experience in broad-range technology with Fortune 500, internet startups, social media and ecommerce companies, with a focus on building and scaling global platforms securely and efficiently.

Mazen's Favorite eBay Experience

"My son is an avid eBay buyer and seller. I regularly hear his compliments and complaints on both buying and selling experiences. This reminds me how relevant and accessible our commerce platform is to users of all ages."

Mazen rejoined eBay in 2016 from Twitter, where he was Vice President of Infrastructure Engineering & Operations. He played a key role in scaling Twitter's business through its IPO. Mazen was also responsible for building, scaling and managing Twitter's global infrastructure throughout its explosive growth.

Previously, Mazen spent more than eight years at eBay and was most recently Vice President of Technology Operations until 2011. Before eBay, he spent time in technical roles at LoudCloud and Oracle Corporation.

Mazen holds a Bachelor of Science in Computer Science and Mathematics from Chapman University. He has previously served on the Board of Quality Technology Services (QTS). His passions outside of work include hiking, soccer, and traveling with his family.
